General advice:

Remove from exposure, lie down. Take off all contaminated clothing immediately. If symptoms call a physician.

After inhalation

Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. If unconscious place in recovery position. Consult a physician after significant exposure.

After skin contact

Wash off immediately with soap and plenty of water. If skin irritation persists, call a physician.

After eye contact

Rinse immediately with plenty of water, also under the eyelids, for at least 5 minutes. If eye irritation persists, consult a specialist.

After swallowing

Rinse mouth with water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. If a person vomits when lying on his back, place him in the recovery position. Call a physician immediately.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms
